It is commercial radio that should be discontinued! The so-called "public airwaves" have become a nuisance! thanks to the bane of unrestricted advertising brought on by the GREED of the commercial broadcasters, and their congressional supporters...all of whom are for sale!

XM Radio performs an invaluable public service, by private means.

I vigorously oppose ANY attempt to restrict it, as it represents an open assault on MY first Amendment rights.

Thank you,
Charles Fialkin
U.S. Citizen
